DELIVERY INFORMATION

PART 1: DELIVERY STATION INFORMATION

Type of Request (Please indicate an "x")

- New Delivery Station
- Existing Service – Capacity Expansion
– Modification

If New Delivery Station: Suggested Delivery Station Name Based on Named Geographical Landmarks (Lakes, Rivers, etc.): _____

Preferred New Delivery Station Legal Location: _____

If Existing Station: Delivery Station Name: _____

Delivery Station Legal Location: _____

Customer Facility Location: _____

Preferred Meter Station Location: _____

Request for Plant Signals (flow, pressure, temperature)? Yes No

Required In-Service Date: _____
 DD/MM/YYYY

Are there seasonal construction constraints to consider for requested location? _____

Additional Constraints (please elaborate): _____

<input type="checkbox"/> Construction Access
<input type="checkbox"/> Fly-In Site
<input type="checkbox"/> Site Condition (muskeg, spring)

_____ Customer Flow (GJ/d and frequency %):

	Minimum		Maximum		Average	
	Flow	Freq (%)	Flow	Freq (%)	Flow	Freq (%)
Current						
Incremental						
Total						

Project Ramp Up (if applicable):

	Demand (GJ/d)	Start Date
Incremental 1		
Incremental 2		
Incremental 3		
Incremental 4		

Meter Station Pressure Information

	kPa
Planned Operating Pressure	
Planned Minimum Delivery Pressure	

Note: Customer requested Delivery Pressure will be given consideration in conjunction with area operational parameters.

PART 2: DOWNSTREAM / USAGE INFORMATION

End User Name	
End User Facility Legal Location *	
End User Operator	
Contact Name	
Telephone No.	

* End User Facility Legal Location means the LSD in which any new pipeline connected to the outlet of the newly requested TransCanada delivery meter station terminates (an existing or planned pipeline or compressor, a pressure regulator, the inlet to a chemical processing facility, or a natural gas burner-tip).

Gas Usage (please indicate "x")

- Miscible Flood
- Industrial
- Storage
- Connecting Pipeline
- Chemical

If Industrial, indicate "x" for all that apply

- Consumed in Heavy Oil Production
- Fuel for Oilfield Equipment
- Petrochemical feedstock or fuel
- Fertilizer Production
- Ammonia Production
- Oil Sands
- Lift Gas
- Power Generation
- Heavy Oil Production
 - Peaking Station
 - Intermediate Station
 - Base Load Station
- Other

Downstream Pressure Information

	kPa
Connected Pipe: Licensed MOP	

Note: Customer Responsible for Over Pressure Protection and Pressure Regulation

Additional Comments (future expansion plans): _____

Extra features to address operational or future expansion plans: _____

Is this a multiphase build up, if so what phase? _____

Please provide a map of your own infrastructure plans if available:
