Dear Ms. Bélanger:

**NOVA GAS TRANSMISSION LTD. (NGTL)
TOLLS, TARIFF, FACILITIES AND PROCEDURES COMMITTEE (TTFP)
RESOLUTION T2004-04
NATURAL GAS LIQUID (NGL) EXTRACTION CONVENTION REPORT
APPLICATION NO. 1420742**

NGTL's filing of the above mentioned report, attached to your letter dated September 28, 2005, is accepted as a filing for information. It is noted that the "NGL Extraction: Current Convention and Alternatives" (the Report) is in response to the Board's request in Decision 2004-006 in respect of Solex Gas Processing Corp.'s Application to Amend a Gas Processing Scheme. The Board notes NGTL's submission that in June 2004, the TTFP adopted Issue T2004-04 for the purposes of reviewing and preparing a report for submission to the Board with respect to the current contracting convention for NGL extraction off the Alberta System including perceived inequities. Subsequently, the NGL Extraction Convention Task Force (NECTF) was formed, and ultimately the Report was prepared.

NGTL presented a summary of the Report at a meeting attended by NECTF representatives, EUB staff and Board members, on March 27, 2006. NGTL submitted that since the Report represented the culmination of a wide ranging and often contentious discussion, NECTF members did not necessarily agree on all aspects of the Report. The Board observes that parties, via the TTFP process, were unable to resolve the issues related to the perceived inequities raised by the Board in Decision 2004-006. Notwithstanding, the Board appreciates the efforts of all parties involved in the preparation of the Report. The Board may follow up with stakeholders at a later date.

It is understood that NGTL has provided notice of this filing to its shippers and to members of the Tolls, Tariff, Facilities and Procedures Committee via TransCanada's Alberta System website. NGTL is directed to advise shippers and the TTFP of this letter in similar fashion. The EUB's letter has been provided in electronic format to facilitate this distribution.

Yours truly,
