Calgary, Alberta, T2P 3Y6

Dear Mr. Hands:

**NOVA GAS TRANSMISSION LTD. (NGTL)  
TOLLS, TARIFF & PROCEDURES COMMITTEE (TTP)  
RESOLUTION T2000-01(g)  
BUSINESS PROCESS CHANGE: IT-R SERVICE ALLOWABLE ALLOCATION  
METHODOLOGY**

---

The above noted resolution, attached to your letter dated June 14, 2002, relating to the allocation of available capacity to Interruptible Receipt Service (IT-R) contract holders, is accepted as a filing for information.

The resolution confirms that the new process for allocating available capacity will replace the current date priority methodology when the requests for IT-R service exceed the Alberta System facilities capability. The EUB notes that the implementation of Resolution T2000-01(g) is proposed for mid 2003, conditional on the availability of the required Information Systems. It is understood that Resolution T2000-01(g) was unopposed by the TTP at its June 11, 2002, meeting.

NGTL is directed to distribute the filing, including the resolution, and this letter to its customers. The EUB's letter has been provided in electronic format to facilitate the distribution to customers.

Yours truly,
