**NOTICE OF APPLICATION****APPLICATION NO. 1418225****NOVA GAS TRANSMISSION LTD.****TOLLS, TARIFF, FACILITIES AND PROCEDURES COMMITTEE****RESOLUTION T2005-04 – SEASONAL SERVICE ATTRIBUTES REVIEW**

**Take Notice** that NOVA Gas Transmission Ltd. (NGTL) has filed an application with the Alberta Energy and Utilities Board (EUB or the Board) under Part 4 of the *Gas Utilities Act*, R.S.A. 2000, c. G-5, as amended, by letter dated September 14, 2005, for approval of amendments to NGTL's Gas Transportation Tariff (Tariff) related to Short Term Firm Transportation Service (STFT) and Firm Transportation – Delivery Winter Service (FT-DW) as well as amendments to the open season process associated with STFT and FT-DW Services and consequential amendments to the Tariff.

**Nature of the Application**

On March 10, 2005, the Tolls, Tariffs, Facilities & Procedures Committee (TTFP) adopted Issue T2005-04 for the purposes of reviewing the attributes of STFT and FT-DW Services. NGTL submitted that subsequent to the adoption of Issue T2005-04, a TTFP task force was formed and met seven times to discuss the service attributes of STFT and FT-DW Services.

NGTL submitted that the proposed changes to STFT and FT-DW Service would align these Alberta System services with similar services offered by the other Canadian pipeline systems owned by TransCanada.

In the Application, NGTL submitted that on September 13, 2005, the TTFP supported amendments to STFT and FT-DW Services through an unopposed vote on Resolution T2005-04. As part of the Resolution T2005-04, the TTFP agreed to review FT-DW Service after completion of the 2006 open season for the purpose of assessing the ongoing need for the Service. NGTL attached to its Application, a copy of Resolution T2005-04, along with a summary of the Tariff amendments, a black-lined copy of the relevant sections of the Tariff illustrating the amendments, and a clean copy of the relevant sections of the Tariff incorporating the amendments.

NGTL proposed that they would hold open seasons in September and October 2005 for STFT Service and FT-DW Service capacity. Subsequently, at the close of the STFT open season, NGTL planned to offer STFT capacity on a daily open season basis commencing October 27, 2005, for service effective on November 1, 2005 conditional on Board approval of this Application.
