**NOTICE OF APPLICATION
APPLICATION NO. 1447028
NOVA GAS TRANSMISSION LTD.
TOLLS, TARIFF, FACILITIES AND PROCEDURES COMMITTEE
RESOLUTION T2005-09 – NGTL TARIFF CLEAN UP**

Take Notice that NOVA Gas Transmission Ltd. (NGTL) has filed an application with the Alberta Energy and Utilities Board (EUB or the Board) under Part 4 of the *Gas Utilities Act*, R.S.A. 2000, c. G-5, as amended, by letter dated February 14, 2006 for approval of amendments to NGTL's Gas Transportation Tariff (Tariff) related to a general tariff clean up.

Nature of the Application

On December 13, 2005, the Tolls, Tariffs, Facilities & Procedures Committee (TTFP) adopted Issue T2005-09 for the purpose of evaluating the removal of Service During Tests and Term Swaps from the Tariff and clarifying the process of pooling service during Interruptions and Curtailments. Subsequent to the adoption of Issue T2005-09, the TTFP met once to discuss the NGTL Tariff clean up. NGTL submitted that it was determined that removal of Service During Tests and clarifying pooled service during Interruptions and Curtailments were appropriate amendments, but certain desirable features of Term Swaps would not otherwise be available without the Tariff reference to Term Swaps. As a result NGTL only proposed to make amendments to the Tariff for Service During Tests and Interruptions and Curtailments.

In the Application, NGTL submitted that on February 14, 2006, TTFP supported the removal of the provision for Service During Tests and the amendments to Interruptions and Curtailments through an unopposed vote on Resolution T2005-09. NGTL attached to its Application, a copy of Resolution T2005-09, along with a copy of the Contract Demand Pooling During Curtailments procedure for information, a black-lined copy of the relevant pages of the Tariff illustrating the amendments, and a clean copy of the relevant pages of the Tariff incorporating the amendments.
