Dear Sir:

**Re: NOVA Gas Transmission Ltd. (NGTL)
Tolls, Tariff, Facilities and Procedures Committee (TTFP)
Resolution T2006-06 – New Industry Calendar**

NGTL applies to the Alberta Energy and Utilities Board (Board) under Part 4 of the *Gas Utilities Act*, for approval of tariff changes necessary to implement a new industry calendar to allow for alignment of demand and commodity charges for billing purposes. Subject to Board approval of Resolution T2006-06, this amendment to the Tariff will be effective October 1, 2006.

On July 10, 2001 the Tolls, Tariff & Procedures Committee, the predecessor to the TTFP, supported a resolution to implement a new industry calendar to allow for alignment of demand and commodity charges on the same invoice. The resolution was filed with the Board and accepted as a filing for information on September 14, 2001, pending TransCanada having the required information systems available.

On January 10, 2006 TransCanada presented an update to the TTFP and informed members that the information systems would be available May 2006. TTFP members expressed concern regarding implementation of the new industry calendar. TransCanada held a number of meetings with the Business Process Task Force along with industry market and production accountants to modify the proposed industry calendar to lessen the impact of the changes and ensure the market and production accountants were satisfied with the proposed changes.

Issue T2006-06 was adopted by the TTFP on June 13, 2006 and on July 11, 2006, the TTFP supported the changes to the industry calendar and amendments to the Tariff to allow for alignment of the demand and commodity charges for billing purposes through an unopposed vote on Resolution T2006-06.

Following the September 20, 2006 invoice (July commodity and August demand charges) TransCanada intends to send an additional invoice on or about September 22, 2006 for the August commodity charges. Any resulting revenue over-collection will be recorded in the Revenue deferral account and included in the calculation of the 2007 revenue requirement as specified in the 2005-2007 Revenue Requirement Settlement approved by Board in Decision 2005-057. Commencing in October, the invoice will be for the prior month's commodity and demand charges (e.g. the October bill will apply to September commodity and demand charges).

A copy of Resolution T2006-06 is attached to this letter. Also attached are a summary of the Tariff amendments and a black-lined copy of the relevant pages of the Tariff illustrating the proposed amendments.

NGTL is notifying its shippers and members of the TTFP of the availability of this filing on TransCanada's Alberta System website at:

Please direct all notices and communications regarding this matter to Greg Szuch by e-mail at greg_szuch@transcanada.com and alberta_system@transcanada.com, or by phone at (403) 920-5321.

TTFP Resolution T2006-06

Tolls, Tariff, Facilities & Procedures Committee

Resolution T2006-06: New Industry Calendar

Resolution

The Tolls, Tariff, Facilities & Procedures Committee (TTFP) agrees to implementation of the New Industry Calendar and associated Tariff amendments to allow for alignment of demand and commodity charges for billing purposes.

Background

On July 10, 2001, the Tolls, Tariff & Procedures Committee (TTP), the predecessor to the TTFP, supported a resolution to implement a new industry calendar to allow for alignment of demand and commodity charges on the same invoice. The resolution was filed with the Alberta Energy and Utilities Board (EUB) and accepted as a filing for information on September 14, 2001, pending TransCanada having the required Information Systems available.

On January 10, 2006, TransCanada presented an update to the TTFP and informed that the Information Systems would be available by May 2006. TTFP members expressed concern regarding implementation of the new industry calendar and potential impacts to production accountants and market accountants. TransCanada held a number of meetings with the Business Process Task Force along with industry market and production accountants, and worked to modify the calendar to reduce impacts to the extent possible.

The New Industry Calendar will be based on electronic medium with TransCanada:

1. Providing the Alberta System invoice 3 ½ work days prior to the industry pay day;
2. Providing the Alberta System gas balance 3 ½ work days prior to the industry pay day;
3. Receiving receipt allocation information from Common Stream Operators 4 ½ work days prior to the industry pay day;
4. Receiving prior period receipt allocations from Common Stream Operators 8 ½ work days prior to the industry pay day;
5. Providing Alberta System finalized measurement 5 work days after a gas month.

Once implemented, demand and commodity charges will be aligned within a billing month for all services with the exception of FT-P, LRS, LRS-2, LRS-3, PTS and CO₂.

Next Steps

TransCanada will file the resolution and Tariff amendments with the EUB. Pending approval by the EUB, the New Industry Calendar will become effective for the month of October 2006.

In addition to the regular September 20th invoice (July commodity and August demand charges); TransCanada intends to send an additional invoice on or about September 22nd for the August commodity charges.
