

March 27, 2026

TO: Current and Prospective NGTL System Customers  
FROM: NGTL GP Ltd. on behalf of NGTL Limited Partnership (collectively NGTL)  
RE: NGTL Investment Framework

The Tolls, Tariff, Facilities and Procedures Committee (TTFP) adopted Issue T2026-01: NGTL Investment Framework (“Issue”) at the March 26, 2026 TTFP meeting for the purpose of entering into discussions on an NGTL investment framework to support the advancement of incremental system growth (“Investment Framework”), and to determine whether settlement can be achieved. Upcoming service offerings are being advanced alongside Investment Framework discussions (per [the bulletin](#) issued on March 19, 2026). Capital sanctioning associated with NGTL’s upcoming service offerings will require a supporting business case, including agreement on an Investment Framework.

The purpose of this letter is to provide notice to parties that are not TTFP members but have an identifiable commercial interest in this Issue and seek to participate in these discussions. Participation is limited to this Task Force only and does not grant full TTFP membership. All parties that participate in the Task Force will be required to adhere to the TTFP procedures during these discussions, including confidentiality provisions and discussions being on a ‘without prejudice’ basis.

If your organization is not a TTFP member but is interested in participating in the Task Force, or if you have questions about the Issue or Task Force process, please submit a request to participate via the form link [here](#). Participation is at the discretion of NGTL, and requests should be made on or before April 24, 2026. Upon acceptance, NGTL will communicate the start date of the Task Force with all participants.

Regards,

Lindsay Mackay  
Vice-President, Commercial and Business Development  
Canada Gas
