

Early Revert Temporary Assignment: Customers are now able to early revert temporary assignments prior to the request's end date.

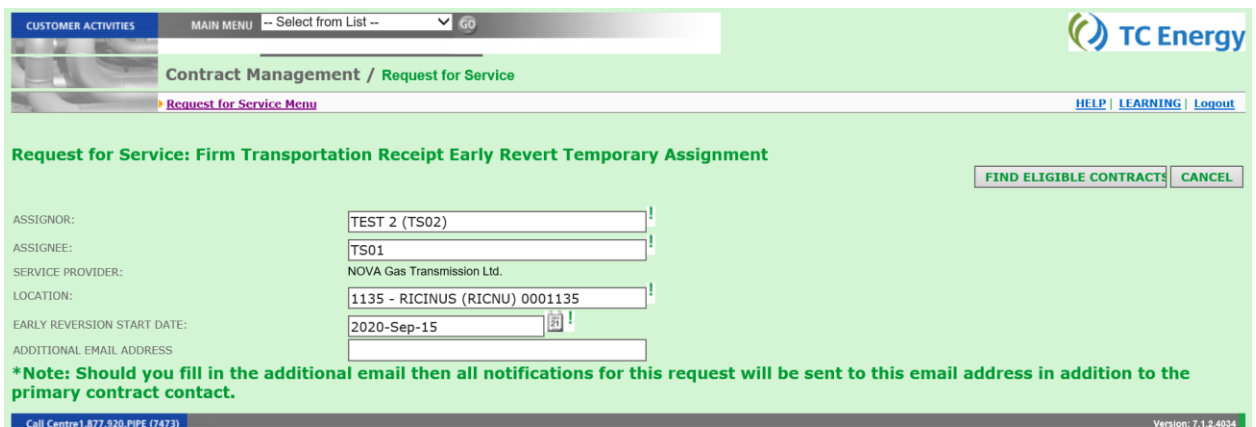

1. In the Customer Activities page under Contract Management, select Request for Service (RFS).

2. In the Request for Service page, select the service type under Early Revert Temporary Assignment that you wish to early revert.

3. Enter the Assignor (who you sent the temporary assignment to originally), location, and the date that you would like the early reversion to start on. Select Find Eligible Contracts.

- Select the contract that you wish to early revert. Hit submit. Only full contracts can be selected; partial amounts of contracts cannot be early reverted.

Welcome to TC Energy's Customer Activities
 Customer Training for TC Energy Customers
 Are you new to doing business on TC Energy's pipelines, including BC, Mainline, NGTL and Saskatchewan systems? Could you use some assistance navigating our tools and websites?

- The customer can now accept or reject the request. Once this has been done it will then be evaluated by TC Energy.
