May 20, 2004

TransCanada PipeLines Limited
Attention: Ms. Céline Bélanger
450 – 1st Street SW
Calgary, AB, T2P 5H1

Dear Ms. Bélanger:

**NOVA GAS TRANSMISSION LTD. (NGTL)
TOLLS, TARIFF, FACILITIES AND PROCEDURES COMMITTEE (TTFP)
RESOLUTION T2003-06
STORAGE TRANSPORTATION SERVICE**

NGTL's filing of the above noted resolution, attached to your letter dated April 30, 2004, regarding the adoption of the Interruptible Transportation Storage Procedure (IT-S Procedure), is accepted as a filing for information. The Board notes that at the April 13, 2004 meeting, the TTFP supported the adoption of the IT-S Procedure under which natural gas volumes delivered to or received from storage facilities under Rate Schedule IT-S are administered and allocated by Connecting Pipeline Operators on a monthly basis.

The Board accepts NGTL's resolution on the understanding that any aspect of the Interruptible Transportation Storage Procedure could be addressed as part of Phase II of the General Rate Application, pursuant to an intervention by an NGTL customer, or at the EUB's discretion.

NGTL is directed to distribute the filing, including the resolution, the IT-S Procedure, attachments and this letter to its customers and all Connecting Pipeline Operators. The EUB's letter has been provided in electronic format to facilitate the distribution to customers.

Yours truly,
