**NOTICE OF APPLICATION  
APPLICATION NO. 1515354  
NOVA GAS TRANSMISSION LTD.  
TOLLS, TARIFF, FACILITIES AND PROCEDURES COMMITTEE  
RESOLUTION T2007-02 – FT-P DEMAND AND COMMODITY ALIGNMENT**

**Take Notice** that the Alberta Energy and Utilities Board (EUB or the Board) may continue to process this application without further notice if no valid objections are received on or before **July 10, 2007**.

## **Particulars of the Application**

NOVA Gas Transmission Ltd. (NGTL) has filed an application dated June 13, 2007 (the Application) with the Board under Part 4 of the *Gas Utilities Act*, R.S.A. 2000, c. G-5, as amended, for approval of amendments to its Tariff related to Firm Transportation - Alberta Points to Point (FT-P).

NGTL submits that the proposed amendments will allow NGTL to align the commodity and demand charges for Rate Schedule FT-P for billing purposes. In a letter dated August 31, 2006, the EUB accepted as a filing for information NGTL's tariff amendments related to a new industry calendar and alignment of demand and commodity charges for many services. However, FT-P charges were not aligned at that time because invoicing of the FT-P service was processed manually. NGTL submits that it is now automating FT-P service, thereby creating an opportunity to align the commodity and demand charges.

NGTL notes that on June 12, 2007, the Tolls, Tariff, Facilities and Procedures Committee (TTFP) supported the proposed amendments by unopposed Resolution T2007-02. NGTL is notifying its shippers and members of the TTFP of the availability of this filing on TransCanada's Alberta System website at:

[http://www.transcanada.com/Alberta/regulatory\\_info/2007.htm](http://www.transcanada.com/Alberta/regulatory_info/2007.htm).

In the Application, NGTL attached TTFP Resolution T2007-02, a black-lined copy of relevant pages of the Tariff illustrating the proposed amendments, and a clean copy of the relevant sections of the Tariff incorporating the amendments.

NGTL requests the Board to render a decision on the proposed amendments by July 24, 2007, in order to accommodate the billing alignment effective September 1, 2007.
